

Bored Through Male Connector

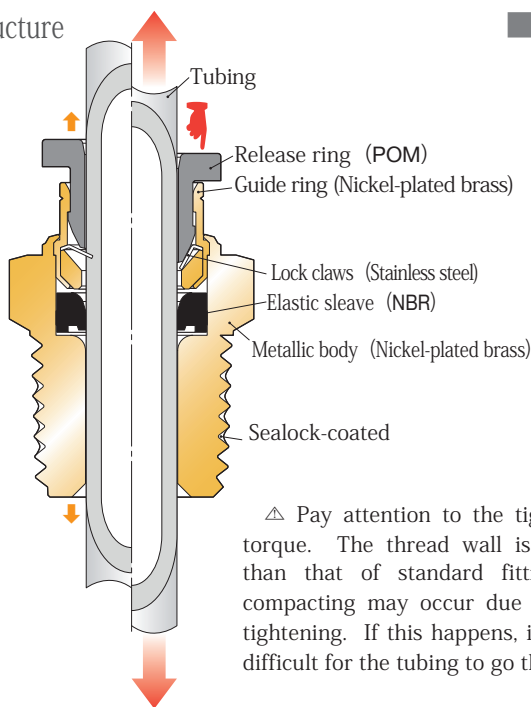

Bore-through Push-in Fitting

Model) **PC1/2-N3U-TEN**
 Bore-through

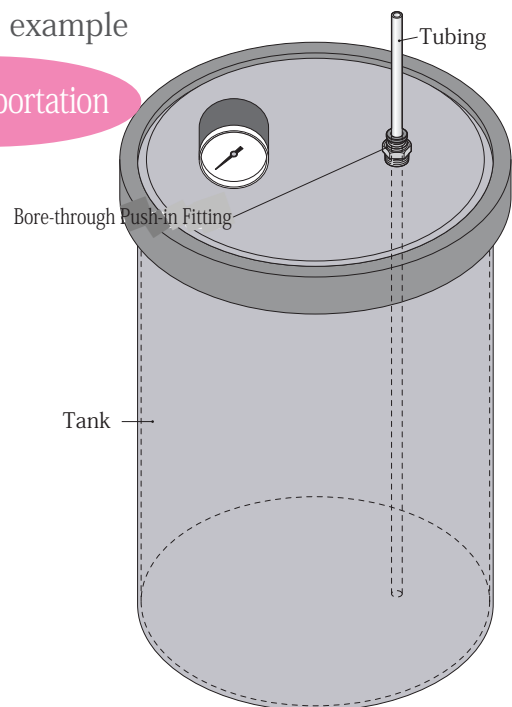

- Tubing is able to go completely through the body of the male connector.
- Ideal for installing on tanks, sinks and drums since tubing goes through the fitting with seal integrity.
- The location/position of the tubing can be adjusted and set by pressing the release ring of the fitting.
- Installation is easier than using compression fittings.

■ Structure

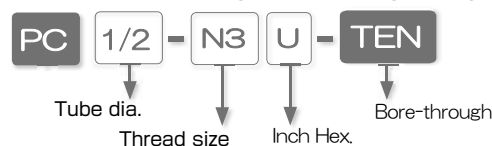

■ Application example

Fluid transportation

■ Model Designation (Example) - Straight Bore-through fitting

Tube dia. - example: 1/4", 3/8", 1/2", 10mm, 12mm

Thread size - example: N2 (1/4NPT), N3 (3/8NPT), O2 (R1/4), O3 (R3/8)
